We are delighted to inform you that we have now joined the modern world and can take card payments. I am sending out this newsletter with only two new trips to allow me to get a grip on the card payment system without a huge number of bookings coming in at once!

Having tried to use the seat numbers for bookings it has proved a nightmare. Therefore, we will go back to you requesting a certain seat in the special request box and I will make sure the Driver knows on the pick up list.

Pick up times and details of our trips are available on our website. You can also download the latest newsletter from the website. www.jgtheatreclub.co.uk

PLEASE: can you contact me on the office phone 01825 732211 not on my mobile. I have an answerphone on the landline so you can always leave a message if I am out of the office. If it is an emergency then please use my mobile.

IF YOU DO HAVE A MOBILE NUMBER REGISTERED WITH US can you make sure you have your mobile with you on the day of a trip as I can then contact you if there are any delays.

The most iconic building on site is where the first Codebreakers were based before the workforce expanded into newly built huts and blocks. The Mansion continued to serve as a head office and leisure building. Today you can explore a number of exhibitions here, such as Early Days and Veterans' Stories, as well as the office of Alastair Denniston, Head of the Government Code and Cypher School, and the Library, atmospherically dressed as it would have looked as a Naval Intelligence office during WW2. Immersive films, interactive displays, museum collections and faithfully recreated WW2 rooms will guide you on a journey to discover the past at Bletchley Park. Exhibitions, set within beautifully restored historic buildings, tell the story of this once top-secret operation. Find out more about the brilliant minds and complex machines that made this vital work possible and discover the global impact Bletchley Park had on the outcome of WW2. All the exhibitions are positioned at ground floor level. Ramps are installed on site for easy access. A disabled access lift is available to use to enter the exhibition area in Block A (The Intelligence Factory and The Art of Data).
